RAVALLI COUNTY COMMISSIONERS
215 S. 4TH STREET, #A
HAMILTON, MT
59840

Dear Interested Party,

I want to advise you that we have posted the 2006 Bitterroot National Forest Monitoring and Evaluation Report to our internet website. The report documents some of the monitoring accomplished throughout the year and evaluates whether we are accomplishing the goals set forth in the Land and Resource Management Plan. Although we are well into the process of updating and revising the 1987 Forest Plan, it does continue to provide adequate guidance for managing the Forest's lands and resources.

We prefer that you read or print the report online; however for those without computer access, a limited number of printed reports will be available upon request in the near future.

The internet address is <http://www.fs.fed.us/r1/bitterroot/projects/> Then look under the "Reports" section.

We welcome any ideas or comments you have on this report or the overall management of the Forest. If you have question about report, please contact Sue Heald at this office.

for

DAVID T. BULL
Forest Supervisor
